

I Got You Freedom ! Chia Wei Lin

“I got you freedom !” The United States of America, the so-called “Land of Freedom ” is the first and the only foreign country I’ve been to. About two years ago, I went there for a year as an exchange student. Little did I know that I would fall in love with this foreign country. This picture was taken while I was on a ferry. Statue of Liberty was circled in my fingers. Freedom can be easily found, yet hard to be seized. I learned how to slow my pace and rediscover the beauty of life.

My host family is in Denver, Colorado, Of course, no trip to Colorado would be complete without having a try of Rocky Mountain oysters. “Buffalo’s balls ” is another way to call it. Out of my expectation, the taste of it was actually quite delicious !

Staying in a foreign country, it’s no doubt that I did miss my family and life in Taiwan, yet the bonding

between this foreign land and I have grown stronger gradually and unconsciously. Before I left Denver, my host mom took a photo which contains the national flag of The US, the state flag of Colorado and I. No matter how far the distance will be between this land and I in the future, I know that I can always go back to my second home whenever I miss it. Go back to the land of freedom.
